

Let's Build GREEN

AN ISO 9001:2015 CERTIFIED COMPANY

MAP - CURE

Water based concrete curing compound

LIMITATIONS

- Concrete staining may occur if **MAP - CURE** is applied to dry surfaces.
- **MAP - CURE** should be protected from rain and traffic for three (3) hours after application or until the membrane has completely dried.
- To prevent clogging, regular cleaning of jet sprays during application is recommended.
- It should not be over coated with other coating or treatments. If material is to be applied over the top of a surface treated with **MAP - CURE**, sand blasting or solvent treatment is recommended as surface preparation.
- Early application of **MAP - CURE** will help prevent plastic shrinkage cracks from occurring by reducing the amount of water evaporating. Concrete curing compound, however, will not counter the effects of

cracking that may occur as a result of long term drying & shrinkage. Good concrete practice must apply when positioning construction joints and shrinkage control joint.

PACKING & COVERAGE

Packing : 1, 5, 10, 50, 100 & 200 ltr. packaging.

Coverage : 5-6 m² per liter

QUALITY ASSURANCE

MAP PRODUCTS PVT LTD. is a firm of Assessed Capability. The company conforms to the standard quality system, environmental management and is an ISO 9001:2015, ISO 14001:2015 & OHSAS 18001:2007 Certified Company.
